Dear Sir

Gen. McConnel

returned from Marshfield

Has not custer done this thing handsomely (in a military sense) Riding 12 hours with the thermometer below freezing & then standing to horse in 12 makes around for hours is soldiering - He forgets however to tell us whether there were any wounded blows ing ~~which~~. If there were it would double the feat: If not it is still worth talking of

the fourth of February for after
making inquiries about
Southern climates it appeared
that in Florida at least
there is a great lack of every
article except Bacon, Fish, Potatoes. To Washington
we may go I certainly would
if Mrs Johnson should there
be leave to accompany us soonest
